

# Parent/Guardian Guide and Refusal for Student Participation in Statewide Testing

This information will help parents/guardians make informed decisions that benefit their children, schools, and communities.

## Why statewide testing?

Minnesota values its educational system and the professionalism of its educators. Minnesota educators created the academic standards which are rigorous and prepare our students for career and college.

The statewide assessments are how we as a state measure that curriculum and daily instruction in our schools are being aligned to the academics standards, ensuring all students are being provided an equitable education. Statewide assessment results are just one tool to monitor that we are providing our children with the education that will ensure a strong workforce and knowledgeable citizens.

## Why does participation matter?

A statewide assessment is just one measure of your student's achievement, but your student's participation is important to understand how effectively the education at your student's school is aligned to the academic standards.

- In Minnesota's implementation of the federal Every Student Succeeds Act, a student not participating in the statewide assessments will not receive an individual score and will be counted as "not proficient" for the purpose of school and district accountability, including opportunities for support and recognition.
- Students who receive a college-ready score on the high school MCA are not required to take a remedial, noncredit course at a Minnesota State college or university in the corresponding subject area, potentially saving the student time and money.
- Educators and policy makers use information from assessments to make decisions about resources and support provided.
- Parents and the general public use assessment information to compare schools and make decisions about where to purchase a home or to enroll their children.
- School performance results that are publicly released and used by families and communities, are negatively impacted if students do not participate in assessments.

## Academic Standards and Assessments

### What are academic standards?

The [Minnesota K–12 Academic Standards](#) are the statewide expectations for student academic achievement. They identify the knowledge and skills that all students must achieve in a content area and are organized by grade level. School districts determine how students will meet the standards by developing courses and curriculum aligned to the academic standards.

### What is the relationship between academic statewide assessments and the academic standards?

The statewide assessments in mathematics, reading, and science are used to measure whether students, and their school and district, are meeting the academic standards. Statewide assessments are one measure of how well students are doing on the content that is part of their daily instruction. It is also a measure of how well schools and districts are doing in aligning their curriculum and teaching the standards.

#### Minnesota Comprehensive Assessment (MCA) and Minnesota Test of Academic Skills (MTAS)

- Based on the Minnesota Academic Standards; given annually in grades 3–8 and high school in reading and mathematics; given annually in grades 5, 8 and high school for science.
- Majority of students take the MCA.
- MTAS is an option for students with the most significant cognitive disabilities.

#### ACCESS and Alternate ACCESS for English Learners

- Based on the WIDA English Language Development Standards.
- Given annually to English learners in grades K–12 in reading, writing, listening and speaking.
- Majority of English learners take ACCESS for ELLs.
- Alternate ACCESS for ELLs is an option for English learners with the most significant cognitive disabilities.

## Why are these assessments effective?

Minnesota believes that in order to effectively measure what students are learning, testing needs to be more than answering multiple choice questions.

- To answer questions, students may need to type in answers, drag and drop images and words, or manipulate a graph or information.
- The Reading and Mathematics MCAs are adaptive, which means the answers a student provides determine the next questions the student will answer.
- The Science MCA incorporates simulations, which require students to perform experiments in order to answer questions.

All of these provide students the opportunity to apply critical thinking needed for success in college and careers and show what they know and can do.

## Are there limits on local testing?

As stated in Minnesota Statutes, section 120B.301, for students in grades 1–6, the cumulative total amount of time spent taking locally adopted districtwide or schoolwide assessments must not exceed 10 hours per school year. For students in grades 7–12, the cumulative total amount of time spent taking locally adopted districtwide or schoolwide assessments must not exceed 11 hours per school year. These limits do not include statewide testing.

In an effort to encourage transparency, the statute also requires a district or charter school, before the first day of each school year, to publish on its website a comprehensive calendar of standardized tests to be administered in the district or charter school during that school year. The calendar must provide the rationale for administering each assessment and indicate whether the assessment is a local option or required by state or federal law.

## What if I choose not to have my student participate?

Parents/guardians have a right to not have their student participate in state-required standardized assessments. Minnesota Statutes require the department to provide information about statewide assessments to parents/guardians and include a form to complete if they refuse to have their student participate. This form follows on the next page and includes an area to note the reason for the refusal to participate. Your student's district may require additional information.

A school or district may have additional consequences beyond those mentioned in this document for a student not participating in the state-required standardized assessments. There may also be consequences for not participating in assessments selected and administered at the local level. Please contact your school for more information regarding local decisions.

## When do students take the assessments?

Each school sets their testing schedule within the state testing window. Contact your student's school for information on specific testing days.

- The MCA and MTAS testing window begins in March and ends in May.
- The ACCESS and Alternate ACCESS for ELLs testing window begins at the end of January and ends in March.

## When do I receive my student's results?

Each summer, individual student reports are sent to school districts and are provided to families no later than fall conferences. The reports can be used to see your child's progress and help guide future instruction.

## How much time is spent on testing?

Statewide assessments are taken one time each year; the majority of students test online. On average, the amount of time spent taking statewide assessments is **less than 1 percent of instructional time** in a school year. The assessments are not timed and students can continue working as long as they need.

## Why does it seem like my student is taking more tests?

The statewide required tests are limited to those outlined in this document. Many districts make local decisions to administer additional tests that the state does not require. Contact your district for more information.

## Where do I get more information?

Students and families can find out more on our [Statewide Testing page](https://education.state.mn.us) (education.state.mn.us > Students and Families > Programs and Initiatives > Statewide Testing).

Minnesota Statutes, section 120B.31, subdivision 4a, requires the commissioner to create and publish a form for parents and guardians to complete if they refuse to have their student participate in state-required standardized assessments. Your student's district may require additional information. School districts must post this three page form on the district website and include it in district student handbooks.

## Parent/Guardian Refusal for Student Participation in Statewide Assessments

To opt out of statewide assessments, the parent/guardian must complete this form and return it to the student's school.

To best support school district planning, please submit this form to the student's school no later than January 15 of the academic school year. For students who enroll after a statewide testing window begins, please submit the form within two weeks of enrollment. A new refusal form is required **each year** parents/guardians wish to opt the student out of statewide assessments.

Date \_\_\_\_\_ (This form is **only** applicable for the 20\_\_ to 20\_\_ school year.)

Student's Legal First Name \_\_\_\_\_ Student's Legal Middle Initial \_\_\_\_\_

Student's Legal Last Name \_\_\_\_\_ Student's Date of Birth \_\_\_\_\_

Student's District/School \_\_\_\_\_ Grade \_\_\_\_\_

**Please initial to indicate you have received and reviewed information about statewide testing.**

\_\_\_\_\_ I received information on statewide assessments and choose to opt my student out. MDE provides the *Parent/Guardian Guide and Refusal for Student Participation in Statewide Testing* on the [MDE website](#) (Students and Families > Programs and Initiatives > Statewide Testing).

Reason for refusal:

Please indicate the statewide assessment(s) you are opting the student out of this school year:

\_\_\_\_\_ MCA/MTAS Reading                      \_\_\_\_\_ MCA/MTAS Science  
\_\_\_\_\_ MCA/MTAS Mathematics              \_\_\_\_\_ ACCESS or Alternate ACCESS for ELLs

Contact your school or district for the form to opt out of local assessments.

**I understand that by signing this form, my student will lose one opportunity to receive a qualifying score that could potentially save him/her time and money by not having to take remedial, non-credit courses at a Minnesota State college or university. My student will not receive an individual score and will be counted as "not proficient" for the purpose of school and district accountability. My school and I may lose valuable information about how well my student is progressing academically. In addition, refusing to participate in statewide assessments may impact the school, district, and state's efforts to equitably distribute resources and support student learning.**

Parent/Guardian Name (print) \_\_\_\_\_

Parent/Guardian Signature \_\_\_\_\_

To be completed by school or district staff only.                      Student ID or MARSS Number \_\_\_\_\_

In addition to required statewide assessments, Jackson County Central uses the following local assessments to inform curricular and instructional decisions. For more on statewide and local assessment information and testing dates, please visit our district website at [www.jccschools.com](http://www.jccschools.com), *District Info, For Parents*.

**To opt out of any local assessments, the parent/guardian must complete this form and return it to the student's school.** Please indicate below the assessment(s) you are opting the student out of this school year:

- earlyReading (grades K-1) and earlyMath (grade K)  
*earlyReading and earlyMath are used to screen and monitor student progress on developmental reading and math concepts. Results help to inform classroom discussion and identify student risk. This assessment is given individually to students and typically takes 5 to 10 minutes each.*
  
- aReading and aMath (grades K-5)  
*aReading (Adaptive Reading) and aMath (Adaptive Math) are designed for screening to identify students at risk for academic delays and to inform differentiated instruction for students at all levels. aReading and aMath are computer-adaptive measures of reading and mathematic skills that are individualized for each student, but may be delivered in a group format in about 15-30 minutes each.*
  
- CBMreading (grades 1-5)  
*CBMreading (Curriculum-Based Measurement for Reading) is used to monitor students' ongoing reading growth. This assessment is given individually as a teacher listens to and evaluates a student's oral reading fluency, including accuracy, error types, and qualitative features. This measure adds significantly to the insights teachers glean from observing student performance during reading lessons and it indicates how well students are responding to current instruction, when to change instruction, and if changes have worked.*
  
- Career Key Interest Inventory (grade 8)  
*The Career Key Interest Inventory matches users to careers, majors, training programs, and much more. Individuals learn about themselves and identify promising careers and college majors that match their personality and interests.*
  
- PreACT (grade 10)  
*The PreACT™ offers 10th-graders the opportunity to practice for the ACT® test with a shortened version of the test. It provides scores on the ACT 1-36 scale, as well as a full view of students' college and career readiness by identifying areas of strength and improvement for student success.*
  
- ASVAB (grade 11)  
*The ASVAB is a timed multi-aptitude test and career interest inventory. Scores count towards the Armed Forces Qualifying Test (AFQT) and determine qualification for certain military occupational specialties and enlistment bonuses. In addition, each student's career exploration score will help him/her determine their readiness for further education and training in different career areas. Knowing their academic strengths and weaknesses gives each student time to work to improve them before they start a job, begin college/vocational school, or the military.*
  
- ACT (grades 11 &12)  
*Test scores reflect what students have learned throughout high school and provide colleges and universities with excellent information for recruiting, advising, placement, and retention.*
